

acdsee™ Free

A BETTER WAY TO BROWSE

ACDSee Free is a fast and powerful file browser, ideal for viewing RAW images, as well as searching and sorting your media libraries.

View RAW Camera File Formats

RAW image files can be thought of as digital negatives, and with ACDSee Free, RAW files can be viewed just the same as other image files, like JPEG or PNG.

Quickly Load Thousands of Photos

No tedious importing! ACDSee Free connects directly to your computer drives, so you can search, sort, and view your photos instantly.

Easily Create Slideshows

Select the files you want to see, then sit back and watch the journey unfold.

Batch Rotate and Flip

Experience the time-saving power of batch processing by rotating and flipping multiple photos at the same time..

Click and Share with SendPix™

Built by ACDSee, SendPix™ is a free media sharing app seamlessly incorporated into ACDSee Free. Select and send to share memories with family and friends.

View a Plethora of File Types

Your media collection covers many file types from various devices. In addition to photos, you can also view videos, Microsoft Office™ documents, PDFs, and play audio files.

Convenient Printing

Easily print your memories right from ACDSee Free as single images. You can also generate a contact/proof sheet for an overview of many images.

Speedy Viewing

Use Quick View to rapidly scroll through thousands of images.

Helpful Searching

With Quick Search you can tailor your search results based on file names and folder contents. You can also use the Sort menu to further refine image searches by Image Type, File Size, Date Taken, and Date Modified.

Personalization

Want to be inspired by a favorite photo? Use ACDSee Free to set your device's wallpaper.

Gain Perspective

Use the intuitive Zoom In/Out tools to inspect image details.
